

# DOOR FRAME PROTECTORS

Acculine's Inpro Custom Door Frame Protection is designed to protect all door frames from scuffs and costly repainting.

Every Door Frame Protector is individually measured and custom made to your specific requirements.

# WHAT IS UNIQUE ABOUT OUR DOOR FRAME PROTECTION?

- It is a 'One-piece wrap,' rather than a series of angles and a channel requiring vertical caulk joints. This makes it more durable, and also prevents bacteria growth in the failed caulk joints as they deteriorate over time
- Custom measured and made to suit your requirements exactly
- Easy to specify, measure and install, pre-fitted with double-sided adhesive tape
- Prompt service
- Local manufacture
